Summary

I am a self thought full-stack developer with expertise in Typescript, Node.js, Express, React, Nextjs, Nitro, Nuxt and many more. Experienced in building and deploying scalable web applications. Skilled in software architecture and performance optimization.

When I'm not working, I'm developing new skills, enhancing my knowledge and understandings of other technologies and building on Open Source!

Experience

Portals March 2025 - June 2025

Frontend Developer Remote

Built and maintained all dynamic pages for the startup's web platform using Next.js, React, TypeScript, and Tailwind CSS. Focused on creating responsive, high-performance UIs and integrating APIs to deliver a smooth user experience. Collaborated directly with the founding team on product features and frontend architecture.

Freelance August 2024 - Till Date

Full-Stack Developer Remote

Worked with clients to design and develop full-stack web applications using React, Next.js, Node.js, and Tailwind CSS. Handled everything from UI design to backend APIs and deployment. Focused on building scalable, secure, and performant apps with clean architecture and modern DevOps practices.
